

Visakh Vijayan

Full-Stack Developer

vjnvisakh@gmail.com | +91-7980-544-891

With over 8 years of hands-on experience as a software engineer, I have a strong track record of delivering innovative and reliable software solutions across dynamic projects. I've collaborated closely with clients, customers, and technical stakeholders, making me highly adaptable under pressure.

WORK EXPERIENCE (8+ years)

Unify Technologies, Hyderabad, India (Jun 2025 – Present)

Full-Stack Developer

- Building Remus, a micro-investment app focused on simple, accessible spare-change investing.
- Working on domain aggregation ([Unify Domains](#)) and an Open edX-based LMS (LVPEI) with a microservices setup.
- Improved compliance workflows on [SUMMIT](#) for regulated reporting and violation detection through stronger UI/UX.
- Integrated OpenAI and AI services into [Relaxx.AI](#) for real-time, frontend-driven health guidance.
- Contributed to company web revamps, MyKula (parent–educator–business community), and related platform work.

Better Software, Bangalore, India (Oct 2021 – Mar 2025)

Full-Stack Engineer · Team Lead

- Nesh — engineered a platform using OpenAI to retrieve ingested data via NLP.
- Bionic — UI engineer for contractual workflow automation for enterprises.
- [The Pinch Life](#) — team lead on a widely used facility-management SaaS in India.
- SunLead — team lead for a US-focused solar lead-generation product.
- [Recco Joy](#) — team lead on recommendations, ad performance dashboards, and offer disbursement for businesses.

SeenIt Online, Kolkata, India (Feb 2020 – Sep 2021)

Full-Stack Engineer

- Led StyleAde migration from PHP to MERN and built vendor onboarding connecting luxury brand CRMs to low-latency B2C storefronts.
- Improved search and faceted browse with Elasticsearch.

Vawsum Schools, India (Oct 2016 – Jan 2020)

Software Engineer

- Designed a school fee payments module and aggregator admin used across transaction types and gateways.

- Built Vawme (course prescription), drag-and-drop enquiry/forms for admissions and certificates, and timetable integrations.
- Integrated RFID attendance with parent-facing updates; Trakkerz bus tracking with Google Maps live view (.NET services).
- Delivered an SMS vendor management panel with load-based prioritization.

EDUCATION

1. MCA from National Institute of Technology, Jamshedpur (2014-2017) with CGPA 8.5.
2. B.Sc (Hons) Computer Science from JCC, Kolkata (2011-2014) with 70%.

PROJECTS

1. Dumpd! — Self-sustaining AI blog with automated content, cron publishing, and 100+ daily active users.
2. [Rolush Cafe](#) — Custom cake studio storefront with categories, cart checkout, and WhatsApp-led orders.
3. [Startup Stress Tester](#) — Load-testing tool for early-stage apps to surface latency and failure modes before production.
4. [AI Debator](#) — Multi-agent AI debate app with opposing viewpoints and turn-taking beyond single-chat UIs.
5. [Daily Motivation AI](#) — Minimal daily motivation app with scheduled AI-generated prompts, deployed on Vercel.
6. More projects at visakhvijayan.com

ACHIEVEMENTS

1. Best Employee of the Year, 2018 — Vawsum Schools
